

Brisk Engineering delivers quality experienced UMTS, GSM and CDMA engineers to clients who need the best engineers in the industry, and need them now. Brisk engineers have repeatedly been successful completing projects with major national wireless carriers. Furthermore, our hybrid consulting model built on a combination of on-site and remote support has been proven to be highly successful and extremely cost effective.

SOLUTIONS DRIVEN. Brisk engineers are capable of coming in to your market and delivering results utilizing the software and tools that you have deployed or with a loaded toolbox of the industry's leading tools. Even without software or tools, Brisk engineers will be invaluable assets to your team. Through years of experience in the wireless industry, we have developed skills and unique perspectives into solving network issues. This unique blend of experience and tools enables us to create the solutions to your network's challenging problems.

EXPERIENCE. Years of industry experience has allowed Brisk engineers and executives to build relationships with both engineering professionals and front-line engineering managers with the major national wireless carriers.

Our network engineering and telecommunications experience spans a wide range of industries, including Wireless Carriers, Software Engineering, Equipment Manufacturers, Domestic and Foreign Government, Satellite Communications and Project Management. Brisk Engineering expertise encompass:

- Network Design and Optimization
 - Ericsson, Nokia, Nortel, Siemens, Huawei, Alcatel-Lucent, Motorola
- RF Engineering
 - UMTS, GSM, CDMA, WiFi, WiMax, SATCOM
- Project Management
- Frequency Planning
- Software Solutions
 - Optimix AFP, xACP and xWizard
 - TTS OptPCS
 - Forsk Atoll

CUSTOMER SATISFACTION. It is our primary objective at Brisk. We deliver results; Brisk engineers have a proven track record of exceeding customer expectations and over-delivering on our projects. We not only believe in but practice going the extra mile to ensure complete customer satisfaction on every project.

CONTACT US. If you're in need of an experienced and committed engineer with a solid track record who can hit the ground running, please email us at info@briskengineering.com or contact:
